Metastatic
Breast Cancer
Project

URGENT AND EXCITING NEWS!

**STAGE 4 METAPLASTIC PATIENTS ARE NEEDED TO
HELP ADVANCE RESEARCH INTO METAPLASTIC
CARCINOMA OF THE BREAST**

**The Metaplastic Breast Cancer Global Alliance is pleased
to partner with The Metastatic Breast Cancer Project to
advance research in metaplastic breast cancer.**

The MBC project is a nationwide movement of patients, doctors, and scientist working with metastatic breast cancer patients and advocacy organizations. Metastatic breast cancer patients participate by sharing their tumor samples and medical information. The goal is to advance the development of future treatment options and therapies.

Whether you have already signed up for the Metastatic Breast Cancer Project and need to identify yourself with Metaplastic or want to join the MBCProject and participate, you can help advance metaplastic breast cancer research.
